Sunshine Technical School damaged by fire

Sunshine Technical School 1913 – 2013 Celebrating 100 Years Page 59

Early in the morning on Sunday May 14th 1967 fire destroyed room 4 (General classroom), the Canteen and room 7 (Science room). It also badly damaged the Staff Room, room 2 (General classroom) and room 6 (Chaplain's room). These rooms later had to be removed.

The remainder of the wing received damage between the ceiling and the roof while their contents were affected by water and smoke. The prompt action of the Fire Brigade prevented total destruction.

Mr Pittock & Mr Glen, the caretaker were alerted and arrived early at the fire. Two electric clocks stopped at 2.17 am. The Police Arson Squad are investigating.

It was agreed that a letter be sent thanking three boys whose assistance was greatly appreciated following the fire and that each be sent \$3 to buy something they desire to have.
