
MEN CRUSHED BY STEEL DOOR

Two workmen at the Sunshine harvester works were severely injured on Saturday afternoon when a steel door, weighing more than half a ton, fell on them.

James Bird, 48, of McKay St., Sunshine, had his right leg so badly crushed that it had to be amputated at Royal Melbourne Hospital. William Lodge, 54, of West Esplanade, St. Albans, was admitted with a crushed hand.

The door was being assembled on a stove in the annealing section when the supports gave way. Ten other workmen narrowly escaped injury.
