TRAGIC LOSS

The recent road accident involving a party of workmen proceeding to Broadford resulted in the death of a member of a respected local family, Mr. James Arthur Smith of 3 Greenham Street, Maidstone.

Deceased, on the day of the fatality left his parents' home intending to proceed to Broadford by train, but apparently was provided car accommodation by some workmates. This young man was a splendid type with much ability as a footballer and had played many games with Footscray thirds and later with the Broadford club where he was employed as a railway construction worker.

Many floral tributes at the funeral and the attendance of representatives of the local and country sporting and other bodies were tributes to a young man of character and ability.
