

Fire at Cabinet Works

Prompt action on the part of the Sunshine Fire Brigade, under Senior-Fireman Prowd prevented a serious conflagration at the Sunshine Cabinet Works, 22 Devonshire Road, early in the week. A quantity of sawdust had escaped from the blower and fallen on to the boiler house. Some of the sawdust came into contact with the boiler and ignited. A street alarm was broken, and the brigade arrived in time to extinguish the fire before it reached a considerable quantity of timber near-by.
